

Horty Celebrates 50 Years!

A brief history of the company.

Horty & Horty, P.A., is a full-service Certified Public Accounting Firm with offices located in Wilmington and Dover. Established in 1970 by, brothers, Jim and Peter Horty, the Firm was founded with the objective of serving the closely-held and family-owned business communities, while maintaining a philosophy of helping clients succeed.

Starting out in Jim Horty's home, the Firm gained momentum, relocated several times, and continued to flourish. By the time the Firm settled at 29 Hill Road (our address for the next 26 years), the staff and client-base had grown significantly and we found our niche in providing service to closely-held businesses within many industries, including construction and real estate, gaming and financial services.

Jim, Peter, and the original ownership group have long since retired from the Firm and we presently have six shareholders comprising the ownership group of the Firm. We have stood the test of time by always putting clients first. Our goal is to meet and exceed the needs of our clients – to be a partner in their success.

Our services are designed to help mitigate financial risks and promote growth and profitability to small and mid-sized closely held private businesses — those not publicly traded in the stock market — as well as not-for-profits and government entities.

In addition to traditional audit, tax and accounting services, we offer effective business advisory services on a multitude of matters, such as financing, business planning, internal controls, and human resources. We also provide forensic and valuation services, either as standalone service or as a combined service. As a member of the RSM US Alliance, we can provide additional resources, when needed, such as international tax, consulting, and computer security issues.

We have built our client service team by aggressively recruiting talented team members who understand and share our vision. The work often isn't easy, but it is challenging and rewarding. We want our people to be part of a team whose focus is truly helping our clients and whose members enjoy coming to work and learning something new, virtually every day.

Today, the Firm serves its clients from offices in Wilmington and Dover and has the experience and resources to assist with nearly every aspect of a businesses' finances and operations. From growing pains to capital gains, from traditional accounting to making sure that the best internal control systems are in place; no company is too big or too small for our team of CPAs and Advisors.

We look forward to the next 50 years of helping our clients to succeed!
